L E T T E R

FROM

THE SECRETARY OF THE INTERIOR,

TRANSMITTING

*The annual report of the commissioner of schools for the Territory of Utah.*

---

JANUARY 9, 1895.—Referred to the Committee on Territories and ordered to be printed.

---

DEPARTMENT OF THE INTERIOR,  
*Washington, January 7, 1895.*

SIR: I have the honor to transmit herewith the annual report of the commissioner of schools for the Territory of Utah, submitted in accordance with the provisions of section 25 of an act of Congress approved March 3, 1887 (Stat. L., vol. 24, p. 635).

Very respectfully,

HOKE SMITH, *Secretary.*

The PRESIDENT OF THE SENATE.

---

OGDEN, UTAH, *December 31, 1894.*

DEAR SIR: In compliance with an act of Congress I have the honor herewith to submit to that honorable body, through your Department, the annual report of the Commissioner of public schools for the Territory of Utah for the year ending June 30, 1894.

I also submit a statement of the apportionment of the Territorial school fund arising from the 3 mill tax on a dollar for the December distribution, which is about one-half the amount for the year. The law requires the Commissioner to make the apportionment and distribution at two different periods, December and March.

You will observe that I have noted a number of errors in the statistical and financial reports as received from the Superintendents of the several counties of the Territory. I beg leave to call your attention to the fact that it was beyond my power to correct these errors for the want of necessary data to do so, and my appointment being but recent

I did not have the time to return them to the respective counties for correction.

Some suggestions could be made touching our system which, I think, would be an improvement if carried out, but, inasmuch as Utah is preparing for State hood under the enabling act, I deem it unnecessary to call the attention of Congress to them.

The schools of the leading cities of the Territory will compare favorably with other schools in the nation, this comparison comprehending buildings, appointments, and the teaching and supervising force.

I am advised that many of the private and denominational schools are in excellent condition, though I have no data upon which to base a report of them to you.

I have visited a number of the counties, met with the Superintendents and teachers in their institutes and with the patrons in meetings called for their special purpose, and I am proud to say that the people of Utah are showing in a marked degree an increased interest in all matters educational. The schools are more largely attended than ever before. The reply to my query "How is your attendance?" comes all along the line, "We are crowded." The people are meeting this crowded condition, notwithstanding the recent depression, with energies most worthily expended in the erection of new buildings.

These new buildings, whether in city or country, are of the most improved modern type of school architecture, particular attention being paid to the heating, the ventilation, and the arrangement for light.

Our leading institution, the University of Utah, has recently taken a higher position, and the work being done by her faculty fully justifies her assumption to still higher claims. Never in her history were her energies so wisely directed.

Any information not contained in the reports I have sent you I will gladly furnish the Department if it is in my possession.

Respectfully submitted.

T. B. LEWIS,  
*Commissioner of Schools.*

Hon. WILLIAM H. SIMS,  
*Acting Secretary of the Interior.*
